## RIVAL BODY ORGANIZED

Admiral DeweyMade Commander of Spanish-American War Veterans.

Split Over Alleged Political Bias of the Original Society-The Of-

A split has occurred in the organization of the Spanish War Veterans and a rival bedy was formed yesterday, to be known as the Spanish-American War Veterans. Last week the original organization held protracted meeting in this city and perthat time there were rumors of an imsending split, but nothing was made pube officially about it. The meeting yesterlay was held in response to an urgent call of Adjutant General Liller, who gave lasnight the following as the reason for the

"General dissatisfaction, and an attemp to place the organization in the hands of the Ohio representatives, making it appear as a move to political purposes, and the recent action of the members of the committee who were in the minority assuming the privilege of eliminating and vacating offices created by the national convention; making several appointive officers and a may to control the associaficers, and a move to control the associa-tion generally, and remove the headquar-ters to Ohio. Those who were present to-day are men who have made national rep-ntations and are here to make the associa-tion a success and not use it for selfish positives.

The new organization makes all thos army, navy or marine corps, during the Spanish-American war and those now serving in the present Philippine war eligible to membership, provided they can show an Lonorable discharge. A constitution and by-laws were adopted and the units of or-

ganization are to be local camps, departments and a national association.

A resolution was adopted declaring it to be the sense of the body that Admiral George Dewey be "placed at its head and authorizing the adjutant general to convey to the admiral the information of his unantments selection as commander in the information of the unantments selection as commander in the information of the unantments selection as commander in the information of the unantments. imous selection as commander-in-chief, and that he be earnestly requested to accepthe office."

Prof. Hatcher's Lecture Before Na tional Geographic Society.

The regular weekly meeting of the National Geographic Society was held last evening at the Columbian University. Vice President W. J. McGee presided and Mr. J. Stanley Brown was secretary. The of tendance of members and invited guests was larger than at any previous meeting held at the same place this season, and not only was every seat taken, but all the

available standing room was occupied. The address of the evening was delivered by Prof. J. B. Hatcher of Princeton University, who told his audience a great deal about explorations made by himself and a companion during recent years in Patagonia. Along the east coast of that far-off land, he said, there was a long line of bluffs rising to the height of 300 to 500 feet. The result of this is that there are but few harbors except at the mouths of rivers. The speaker explained in detail the various geological formations to be found in Pata-gonia. The most noticeable thing, he said, to be found there was the great rise and fall of the tide in the rivers, which fre-quently varies from forty-six to fifty-two feet.

By means of numerous views from a stereopticon thrown on a screen, the speaker gave those present a good idea of the wonderful glaciers, canons and other formations which exist in Patagonia. One of the pictures shown illustrated how Mr. Hatcher and his companion traveled on Hatcher and his companion traveled on their first trip for 3,000 miles. After reaching Patagonia, he asserted, the neglect to take with them a North American wagon obliged them to make the long distance in a two-wheeled cart of ancient construction. There were, however, many parts of Pata-gonia where even this means of transporta-tion could not be made available, and it was well nigh impossible to get through some of the canons even on horseback.
At the close of the address the speaker
was entnusiastically applauded. Announcement was made that at the next meeting, which will be held Friday next at First Congregational Church, the subject for the evening will be "The Glaciers of Alaska,"

#### The Ash Nuisance. To the Editor of The Evening Star:

I must again appeal to you in regard to the ash nuisance." The case is still the same, if not worse, than last year. Threelegged animals painfully crowled through the streets, dragging after them ramshackly apologies for carts. In this the great capital of a great country we have no effective service for the relief of a suffering public. We doubt if in any city of the Union the taxpayers are so treated. The District not only uses the ashes for "made ground," roads, etc., for which we are already taxed, but also we are forced to pay an extra tax for cartage and dumping. The public is grateful to you for so ably championing the cause, and to the Commissioners for aiding you in your laudable efforts; but the fact still remains that we are sufferers, and are liable at any time to have our eyes, nose and lungs filled with ashes. No wonder, under such circumstances, that grip and other diseases are prevalent.

ACTION NOT UNANIMOUS

Commissioners Divided Upon Appointment of Assistant Assessor.

The Other Two Offices Filled Yesterday Made by Vote of Entire

While the action of the District Commissioners yesterday in making Mr. Hopewell H. Darneille assessor of the District and Mr. Charles C. Rogers disbursing officer was an unanimous matter, the Commissioners were not of one mind in filling the vacancy in the board of assistant assessors caused by the resignation of Mr. J. Harrison Johnson. In making Mr. Matthew Trimble Mr. Johnson's successor the records of the board of Commissioners show that Commissioner Wight nominated Mr. W. B. Bryan for the position relinquished by Mr. Johnson, and voted for Mr. Bryan, Commissioner Ross and Capt. Beach, the Engineer Commissioner, voting for Mr Trimble.

Mr. Wight believed that, in view of the fact that it was thought advisable to make a change in the office of assessor, it was not the best policy to appoint Mr. Trimble to a more important position, so far as District interests are concerned. Commissioner Ross, however, while vot ing to relieve Mr. Trimble of the office of assessor, was of the opinion that he should succeed Mr. Johnson, and therefore nominated him for the position.

### Capt. Beach's Position.

Captain Beach, the Engineer Commissioner, it is quite generally believed, holds that in the making of changes in the personnel of the employes of the District the recommendation of the Commissioner having immediate supervision of the department in which a change is to be made should receive the approval of his associates. Commissioner Ross, having immediate supervision of the office of assessor and also of the board of assistant assessors, and the transfer of Mr. Trimble from the position of assessor to that vacated by Mr. Johnson having been recommended by Mr Ross, it is said that Captain Beach felt that he should vote to approve such recom

he should vote to approve such recommendation.

In vacating the position of assessor and in promoting Mr. Darneille to that place, as well as promoting Mr. Regers to the position of disbursing officer, the Commissioners were, as stated above, unanimous in their action, and the promotions were received with great satisfaction at the District building, where Mr. Darneille and Mr. Rogers are, perhaps, best known. Mr. Darneille, aithough a native of Virginia, has resided in the District since he was a small resided in the District since he was a small boy. He is thirty-two years of age, and has been a District employe during the past fifteen years, entering the service as clerk in the executive office. By various steps he was promoted to the position of pay clerk under the auditor, at one time refusing to profit by the reduction of an old soldier. In 1892 he was made disbursing clerk, hold-ing that position until July 1, 1898, when, Congress having provided the position of disbursing officer, Mr. Darneille was selected as such officer, the salary of which is \$2,500 per annum. Mr. Darneille is a graduate of the District public schools, of the Linthicum Institute and of the law school of the Columbian University. In politics he is a stanch republican.

Is Widely Known. Mr. Trimble is one of the most widely known citizens of the District, and has held the position of assessor during the past nine years. He, too, is a republican. He

occupies a very prominent place in the Masonic order, and is a past grand master of the District Grand Lodge. Mr. Rogers is a native of Ohio, and has been employed under the District government during the past three or four years, where his genial disposition and efficiency have made him most popular. Most of the time Mr. Rogers has acted as assistant

# Save 20% On Your Christmas Purchases

Of course, a Diamond, a Watch, something in silver, a Cane or an Umbrella will figure prominently in your list for Christmas giving. An item of 20 per cent is worth saving, and it can be saved at Castelberg's.

We do business differently from the rest of them and we buy better-we sell closer. Don't take our word for it. Go everywhere -get the others' prices on certain articles, then & come here. The comparison will satisfy you.

# Convenience Of Credit

-is particularly to be appreciated at such a time, when there are so many drains on the pocket book.

You have the privilege of making any purchases you please here-opening an account and paying weekly or monthly, in small sums.

We are open even-Ings now-drop in any
